Design Grounded in Real-World Experience

- Critical differentiator from other AV design & technology consultants
- Up-to-the-minute, proven expertise across the AV spectrum
- Ability to optimize resources to maximize performance, scalability & ROI
 - Leadership in pioneering the hybrid workspace

AV Design Consulting with Sustainability at its Core

As advocates of sustainable AV design, we integrate environmental stewardship into every project. Our approach aligns with the best practices provided by the independent non-profit organization SAve Sustainability in AV.

A focus on lifecycle planning

From the initial design phase to end-of-life management, we ensure our AV design solutions support circular-economy principles to reduce waste through reuse, repair and responsible recycling.

Enhancing our communities

ClearTech partners with local suppliers and recycling partners. We support eco-conscious practices that benefit your organization and the broader community. And we work to reduce the amount of gear entering the waste stream while benefiting deserving organizations.

New criteria for product materials

We choose AV equipment and infrastructure materials that reflect a focus on longevity and recyclability to provide the performance you need while minimizing the toll AV technology takes on the planet.

Maximizing energy efficiency

Tremendous savings can be realized simply by designing solutions with an eye toward energy efficiency. By recommending smart technologies and configurations, we help clients reduce power consumption without diminishing performance.

AV Integration

What's the definition of a true "communication solution?" It's one that combines bulletproof technology and user-friendly design with built-in service and support – provided by a partner who's fully invested in your success and able to leverage technology to advance your strategic objectives.

Seeking out the best technology

We're not just up to date on AV technology, we're experts on tailoring it to your unique needs. Moreover, ClearTech is technology and manufacturer-agnostic. Which means nothing gets in the way of our delivering precisely the solutions you need.

Driving smarter AV solutions

Nowhere is our commitment to your success more evident than in the effectiveness of the solutions we provide. From in-depth research to piloting proposed solutions and A/B testing them, we provide truly workable solutions that perform over time.

Leveraging passion and expertise

We don't just hire the most talented and committed people. We continually invest in keeping them on the cutting edge of our industry with ongoing professional education, exposure to the latest technology showcases, and much more.

ClearTech Connect AV Managed Services

CLEARTECH CONNECT

AV Managed Services

Because every meeting minute matters. Your organization depends on continuous connection, and ClearTech Connect Managed Services keeps your entire AV infrastructure performing at its peak while ensuring the best possible user experience for your team.

24/7 System Monitoring

Continual remote testing and retesting of every connected device helps ensure your system is ready when you need it. When a performance issue is detected, our service and support team is alerted immediately.

Proactive Remote Troubleshooting

In addition to early detection of system issues, ClearTech Connect enables our team to troubleshoot remotely. Issues are identified and resolved often before users are even aware there is a problem.

Live Video Support

In every room where your AV technology is deployed, a posted QR code connects users to face-to-face live video support for any technical problems or operational issues they may encounter.

Onsite Services

Not every issue can be resolved remotely. When you need us, our team is ready to roll with the expertise and equipment necessary to ensure communication continuity across your organization.

The benefits of ClearTech Connect only begin with continuous support of your AV infrastructure.

Total Peace of Mind

Along with face-to-face live support provided by experienced technicians and engineers, ClearTech Connect provides the reassurance that comes from our team's personal commitment to your success.

More Sustainable Operation

ClearTech Connect AV Managed Services extends the longevity of your technology infrastructure by ensuring it remains in optimal working order. That not only benefits you operationally, it advances your sustainability objectives.

Comprehensive Equipment Management

We revolutionize AV asset management by tracking equipment status, IP addresses, manufacturers and models to ensure maintenance is proactive and efficient. In so doing, we also look ahead to optimize system scalability and adaptability.

ClearTech As-A-Service

CLEARTECH As-A-Service

The Subscription AV Solution

This subscription AV solution provides all your AV – ownership free. ClearTech As-A-Service is fully configurable to your unique needs, continuously maintained, and always on the cutting edge to ensure the best possible AV experience for your team.

End-to-end AV

Includes planning & design, procurement & deployment, and monitoring, maintenance & face-to-face support. And at the end of the solution life cycle, we provide responsible disposal and recycling.

Configured to your unique needs

Your solution is custom-designed to meet your specific requirements, and is continuously monitored, managed and refreshed by our team to ensure an optimal user experience at all times, for all users.

A solution with no capital expense

By providing a comprehensive AV solution on a subscription basis, ClearTech As-A-Service transforms technology from a capital expense to a simple operating expense, freeing you to direct your capital where it counts.

Planning & Design

Proven technology solutions are configured to meet your unique needs and designed to deliver a premium user experience.

Procurement & Deployment

ClearTech As-A-Service integrates seamlessly & securely into your larger technology ecosystem with minimal disruption to workflows.

As-A-Service**
Subscription AV

Responsible Disposal & Recycling

When the time comes to refresh your AV technology solution, ClearTech ensures that your outgoing gear is properly repurposed, recycled or disposed of.

Monitoring, Maintenance & Face-to-Face Support

Uptime is all the time with comprehensive management of your entire AV infrastructure, supported by a team that simply will not let you fail.

The Industries ClearTech Serves

Enterprise

For the largest organizations, ClearTech combines scalable expertise with a personal commitment that ensures every client feels valued individually. It's an approach that has sustained our long-term partnerships with some of America's most recognizable enterprises.

Deep expertise. Across-the-board strengths

Trusted by end users, facility managers and IT administrators alike to enable collaboration while protecting network security.

Accessibility and dedication

ClearTech can function as adjuncts to clients' in-house teams or take over the entire AV function with a commitment that matches your own.

Extraordinary service

ClearTech provides tailored support services extending from on-call "break-fix" technician support to remote monitoring, virtual helpdesk support, preventative maintenance, and dedicated on-site technical support.

Corporate

ClearTech's corporate clients rely on us for leading-edge technical prowess combined with the commitment, responsibility and accountability of a true partner.

Our team is your team

Count on us to understand what makes your organization unique, and to design solutions that meet your requirements and advance your specific strategic objectives.

The union of solution and service

We optimize and ensure ongoing performance by maintaining continuous connection between your teams and ours through our ongoing service support.

Tailored service and support

ClearTech provides tailored support services extending from on-call "break-fix" technician support to managed services including remote monitoring, virtual helpdesk support, and preventative maintenance.

Education

Our broad strengths in this sector reflect deep experience working with colleges, universities and K-12 institutions. We understand the education ecosystem and leverage every tool possible to teach, recruit and operate efficiently and effectively on behalf of our clients.

Innovative thinking, proven impact

From state-of-the-art learning labs to flexible hybrid classrooms, our solutions reflect our insights into all your constituencies – students, faculty, administration, support teams and outside stakeholders.

Leading the hybrid revolution

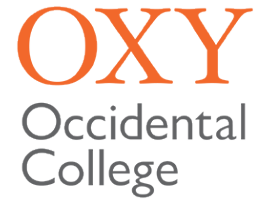

With solutions including the EduFlex mobile collaboration solution, ClearTech has partnered with leading educational institutions to provide a technology experience that meets their rapidly evolving requirements.

Tailored service and support

ClearTech provides tailored support services extending from on-call "break-fix" technician support to managed services including remote monitoring, virtual helpdesk support, and preventative maintenance.

Our Clients

Testimonials

"ClearTech is an excellent choice. All our locations are happy, and we hope to continue our relationship to make sure that our systems stay up and running."

– **Regional Facilities Manager**, Fortune 500 utility company

"ClearTech are innovative designers, advisors and integrators who attentively listened, were responsive and furnished solutions that optimized the learning environment."

– **Campus Director**, Southern California private university

"Project management and communication have been the best of any AV company I have worked with. I have no reason to look any further for an AV partner."

– **Network Computing & Telecommunications Systems Supervisor**,
Southern California-based community college

"ClearTech was a critical partner from the very start. They have been 'on the ground' with us the entire way. ClearTech really cares about their clients and makes sure that the technologies provided fit their client's needs."

– **Dean**, Southern California public university

"ClearTech is really good at getting to the best solutions – solutions I have not heard of. We are partners!"

– **Client IT Lead**, Collaboration Technology, Fortune 500 utility company

Our work speaks for itself. So let's talk about values.

More than a company, a family.

The amazing AV integrations ClearTech creates and the level of service we provide reflect a deliberate decision to build ClearTech as a family and make every client a part of it.

We have created a culture in which every team member is personally invested in one another's success and that of our clients. This results in a degree of connection that makes us not just a career destination for our staff, but a life-long partner for the clients we serve.

A team like no other.

The diversity of our team is a profound asset to our clients. Beyond mirroring the organizations we serve, our breadth of talents, perspectives and experience keeps ClearTech on the cutting edge of technological change and user needs.

We bring fresh thinking to solution creation, boundless tenacity to problem solving, and a much-needed idealism to the kind of world we want to build.

So accessible, it's incredible

Connection is everything. We've built ClearTech to make it easy for you to interact with us, and we customize and refine our support infrastructure continuously to meet your needs.

But one thing never changes: our accessibility to clients. When it's easiest just to give us a call, go ahead. You're not a client to some of us – you're a client to ALL of us. More than that, you're a partner and a member of our extended family.

We're part of a larger community

The people of ClearTech are united by an understanding that we – as individuals and as an organization – can only thrive to the extent that we're part of functional communities and a healthy planet. To that end, we devote time and resources to strengthening our ecosystems for the betterment of all.

Sustainability in AV

We have a responsibility to act

From climate change and environmental degradation to poverty and inequality, the challenges to sustainability are profound, diverse – and getting worse. Addressing them requires not just our individual but our collective efforts. Business is not exempt.

The good news is that in the 2030 Sustainable Development Goals (SDGs), we have a blueprint for action. ClearTech is committed to bringing the SDGs both to our organization and the larger AV industry.

The first organization of its kind.

ClearTech founded the first U.S.-based organization to bring stakeholders in AV together to take concerted action to achieve the SDGs. ClearTech founder Christina De Bono and VP of Operations Thuy To-Chin serve on the SAVE board and are spearheading efforts to help businesses develop sustainability plans, give their AV gear a second life at the end of its first one, advance education, and much more.

Our values reflect yours.

As a woman-owned business with a team as diverse as it is capable, ClearTech exemplifies the vast capabilities of the American workforce. We are a mirror of the communities, organizations and industries we serve, and our status as an industry leader provides an example of what can be achieved when we create the conditions that allow individuals to realize their potential.

A word about Credentials

The awards we have received, the affiliations and memberships we maintain, and the technology certifications we have earned testify to ClearTech’s commitment to maintaining the highest standards of professionalism.

Industry Memberships

AVIXA membership signals industry-certified expertise, adherence to strict standards and access to the latest technology.

Edge partnership assures clients of superior technical expertise, vetted reliability, and procurement-related cost efficiencies.

As the founder of SAVE, ClearTech demonstrates our proactive commitment to waste reduction, operational efficiency, and fostering a sustainable future.

NSCA membership signals that we are not just installing equipment, but acting as a strategic partner with backing from an industry leader.

Designations

Earning WBE Certification is a significant achievement, granted only to organizations that undergo a very thorough vetting including a review of business documentation, site visits and more. To become a WBE business, ClearTech demonstrated that it is well-run, well-capitalized, and stable.

As a Certified Small Business Enterprise, ClearTech offers our clients the agility, accountability, and personal investment of a boutique partner, combined with the technical expertise and delivery capabilities you expect from a top-tier AV integrator.

As a SAVE Certified organization, ClearTech maintains and rigorously adheres to an actionable, measurable sustainability plan that leverages our resources and will to advance the 2030 Sustainable Development Goals for the betterment of our company, community, industry, and planet.

The commitment, responsibility and accountability of a true partner

You've never worked with a company like ClearTech. You've never gotten results like we deliver, or experienced the kind of service we provide.

That's because you've never had a partner who's so connected to you, your organization and your communication requirements.

We are relentless in finding the best solution to every unique client need, unstoppable when it comes to problem solving, and utterly invested in our clients' success.
